Software Developer
Zubari.io
Oct 2024 - Present · Costa Rica/Remote
Full stack development of a decentralized content subscription and monetization platform. Designed and implemented 12+ Solidity smart contracts (ERC-721, ERC-1155, subscriptions, tips, payouts), built the multi-chain SDK (@zubari/sdk) on top of Tether WDK supporting Ethereum, Bitcoin, TON, TRON, and Solana, and developed the backend (Express.js, TypeScript, Prisma, PostgreSQL) with Clean Architecture and the frontend (Next.js 15, React 19). Infrastructure deployed on AWS (ECS, RDS, S3).

Open Source Software Developer
OnlyDust
Oct 2024 - Present · Costa Rica/Remote
Maintainer creating issues and managing a community for a Web3 project called Revolutionary Farmer, and contributor to various open source projects.

Community Lead/Sensei
Dev.f
Oct 2019 - Present · Costa Rica/Remote
Managed community and event organization, and participated as a sensei teaching modules in coding bootcamps.

Frontend Developer
Elevar Salud
Aug 2023 - May 2024 · Remote
Participated in all stages of the software development lifecycle, contributing to the design and development of two key applications: one for patients and one for physicians, enabling communication through telemedicine and collecting critical medical information. Used technologies such as React, Next.js, and TypeScript.

Full Stack Developer
Arrenda
Oct 2022 - Jun 2023 · Remote
At Arrenda, my role covered both frontend and backend development, contributing to the design and creation of modules using Node.js and Vue.js.

Frontend Developer
Gamanza
Nov 2019 - Oct 2021 · Costa Rica
Developed specialized CRM systems for the casino industry, from design through implementation, improving client interaction and optimizing operations.
